NOC Date:		Citizen Complaint:	YES	Multimedia Inspection:	NO	Sampling:	NO	Not Subtitle C:	NO	Day Zero:	09/12/2019	Focus Area:	
Eval. Notes:	On September 12, 2019, John White and Michael Eckoff, Florida Department of Environmental Protection (FDEP), inspected Vectorworks, Inc (Vectorworks). for compliance with state and federal hazardous waste regulations. The inspection was prompted by a complaint received through the U.S. EPA website that alleged drums of hazardous waste were stockpiled behind "building 3" on the property along with a pallet of smaller, 2.5 to 5-gallon containers.. The complaint also alleged the "batch room" has a drain that discharges into the Indian River and a storm drain between buildings 1 and 2 has a large holding tank for methyl methacrylate (MMA). Vectorworks was represented by Kurtis Hopf, P.E., Senior Vice President. Gene Wilenius, Quality EHS Manager for Engineered Bonding Solutions, LLC, (EBS) represented EBS, an internal tenant facility that produced the chemicals of concern in the complaint. Vectorworks manufacturers molds for the boat building industry and also builds some large and small boats of its own design. Based on information provided, EBS, the on-site tenant, has been manufacturing adhesives at this location since 2011. Up to now, EBS has shared resources with Vectorworks. In the near future, EBS will relocate to its own facility. Vectorworks initially notified the Department of its activities as a small quantity generator of hazardous waste on January 12, 2000, and received EPA identification number FLR000054528. Following the inspection, on September 27, 2019, Vectorworks provided an updated hazardous waste notification to the Department to reflect changes to the facility name and on-site contacts. The City of Titusville provides sewer and water services. Compliance History (Past 10 Years) Vectorworks has not been inspected by the Department in the past 10 year												

No Linked Violations

CEI Evaluation	01/27/2010	Activity Location:	FL	By:	STATE	Identifier:	CEN	Person:	JCH	Suborganization:	CD	Found Violation:	NO
NOC Date:		Citizen Complaint:	NO	Multimedia Inspection:	NO	Sampling:	NO	Not Subtitle C:	NO	Day Zero:	01/27/2010	Focus Area:	
Eval. Notes:	On June 20, 2008, a multi-media inspection was conducted by the Florida Department of Environmental Protection at Vectorworks Marine, LLC (Vectorworks) in Titusville, Brevard County, Florida. The purpose of the inspection was to ensure compliance with State and Federal hazardous waste, used oil, waste water, and storm water regulations. This inspection was conducted in response to allegations of debris entering surface waters from construction activities on-site. Vectorworks manufactures plugs and molds for the boat building industry, and builds some large and small boats. Vectorworks has been in business for approximately 13 years and operates on approximately 13 acres of land, including submerged lands. The company currently employs 85 people and operates five days per week from 6:00 am to 5:00 pm. The City of Titusville provides water and sewer services. This report details aspects of the inspection as they pertain to hazardous waste issues. Further information regarding the inspection, including aspects relating to other program areas, may be found in the Central District's Multi-Media section. INSPECTION/COMPLIANCE HISTORY Vectorworks' most recent inspection was conducted by John Harris on June 20, 2008. Vectorworks was not in compliance at that time. The facility was cited for improper satellite container management and exceeding its hazardous waste accumulation time limit. The matters were resolved through execution of a Short Form Consent Order which included a payment of \$4,168.00 in penalties and Department costs. Leah Proffitt conducted an inspection on January 24, 2007. Vectorworks was not in compliance at that time. The facility was cited for improper satellite container management, failure to document weekly container inspections, failure to maintain records on-site, failure to file an exception report, failure to label containers of used oil with the words "Used Oil", and failure to properly complete a hazardous waste manifest.												

No Linked Violations

Note: Penalty information associated with an enforcement action is reported with the enforcement action. For enforcement actions associated with multiple violations, the penalty information will be reported with each violation, however, the penalty is only assessed once, regardless of the number of violations associated with the enforcement.
